

Simulator Experience

The **driving.co.za Simulator Experience** is a realistic simulator complete with motion platform. It combines road safety education, driving skills assessment, and the thrill of driving almost any type of heavy vehicle .

About the simulator

The simulator is transportable by road and is entirely self-contained right down to a generator for continued operation during power outages or in areas where no power is available.

Area of operation

The simulator is available within Gauteng. (Other provinces by arrangement - extra costs applicable.)

Format

Driving.co.za will bring the simulator to your location. The simulator can accommodate up to 35 participants per full day, or about 18 participants per half day. (Extended operating hours available on request - extra costs applicable.)

Each participant receives:

- a simulator drive over a route suited to their abilities
- a printout of their drive, impartially assessed by the simulator itself
- coaching and feedback from a driving.co.za trainer
- optionally, a driving.co.za online course (see table for course options)

Package	Description	Cost
